

# Juan Carlos Zepeda

SENIOR FRONT-END ENGINEER

## PROFILE

Senior Front-End Engineer with 8+ years of experience building modern, high-performance, and scalable web applications. Specialized in React, Next.js, and TypeScript, with a strong focus on UI/UX, frontend architecture, and AI-powered solutions.

Proven track record of improving application performance by up to 40%, reducing development time through reusable component architecture, and optimizing digital experiences in enterprise environments.

## EXPERIENCE SUMMARY

### SENIOR FRONT-END ENGINEER

*Afore Principal (Feb 2022 - Mar 2026)*

Developed reusable front-end widgets and component libraries using React.js, Next.js, TypeScript, and Material UI, designed for seamless integration into enterprise systems.

Translated functional requirements and Figma designs into responsive, scalable, and maintainable components, collaborating closely with UX/UI, backend, and product teams within agile environments.

### SENIOR FRONT-END DEVELOPER

*AXA Assistance (Jul 2018 - Jan 2022)*

Developed and modernized enterprise front-end solutions using React.js, Next.js, and TypeScript for insurance industry products.

Contributed to external API integrations, legacy system refactoring, and migration to Azure, while building reusable interfaces focused on performance, maintainability, and user experience.

### FRONT-END DEVELOPER

*SEP (Jul 2016 - Jun 2018)*

Developed and maintained administrative systems and web applications, building a strong foundation in front-end integration, responsive layout development, and enterprise web solutions.

 México - Toluca

## EDUCATION

COMPUTER SYSTEMS ENGINEERING

*University, Mexico (2004 - 2009)*

Professional License: 09635092

### Certifications

React JS Advanced / Next.js

Azure Fundamentals AZ-900

Scrum Fundamentals

AWS S3 & Cloud

### Languages

Espanish — Native

English — B2 (Professional Working Proficiency)

## TECHNICAL SKILLS

- **FrontEnd:** React, Next.js, TypeScript, JavaScript, HTML5, CSS3, SASS
- **UI/UX:** Tailwind CSS, Material UI, Bootstrap, Figma, Responsive Design
- **State & Tools:** Redux, Zustand, Vite, Webpack
- **Testing:** Jest, Cypress, Testing Library, Storybook
- **Cloud & DevOps:** AWS, Azure, Vercel, Docker, CI/CD, GitHub Actions
- **APIs & Security:** REST API, GraphQL, JWT, OAuth2
- **IA:** AI Agents, Chatbots, LLM Integration, GitHub Copilot

# Juan Carlos Zepeda

SENIOR FRONT-END ENGINEER

## PROFESSIONAL EXPERIENCE

### SENIOR FRONT-END ENGINEER

*Afore Principal (Feb 2022 - Mar 2026)*

Developed and maintained applications and widgets using advanced React.js, Next.js, Hooks, Context API, TypeScript, and functional components.

Implemented responsive user interfaces using HTML5, CSS3, Flexbox, Grid, and Material UI, ensuring accessibility, visual consistency, and an optimal user experience.

Translated requirements and Figma designs into documented, reusable, and scalable components aligned with front-end best practices.

Implemented unit and integration testing using Jest, Cypress, and React Testing Library to ensure functional stability.

### SENIOR FRONT-END DEVELOPER

*AXA Assistance (Jul 2018 - Jan 2022)*

Implemented front-end security using JWT and OAuth2, along with integrations with AWS Lambda and connected backend services.

Participated in code reviews, component documentation, technical processes, and the definition of development standards.

Configured CI/CD pipelines using GitHub Actions and YAML files, enabling automated deployments and managing QA, Staging, and Production environments.

Implemented responsive and reusable user interfaces, collaborating with UX/UI, backend, and product teams to deliver new features.

Integrated multiple REST APIs from external roadside assistance and towing service providers to display real-time operational data on the front end.

### FRONT-END DEVELOPER

*SEP (Jul 2016 - Jun 2018)*

Applied SOLID principles, clean code practices, and technical documentation standards to components, interfaces, and business workflows.

Worked within Scrum frameworks using Azure Boards, Azure Repos, Git, version control, code reviews, and continuous task tracking.

## FEATURED PROJECTS

Developed an intelligent simulation and recommendation widget powered by OpenAI, enabling users to explore financial scenarios and make informed decisions within the platform.

Integrated front-end systems with external roadside assistance and towing service providers, enabling real-time visibility of availability, status, and operational data, and implemented a support chatbot to improve user experience and guidance.

Refactored and migrated legacy modules to React, Next.js, and TypeScript, deploying them to Azure via automated pipelines and controlled environments to improve scalability and maintainability.
